CW&C Highways have indicated that as they are more than 500mm from the edge of the road no action will be taken.	Closed
Other Highways Issues					
2018		On going concerns regarding speeding down the A49 in particular the stretch of road between Huxley Lane and Beeston Brook Railway Bridge. Vehicles are regularly observed exceeding the 30mph speed limit and there are frequent bridge collisions by high side vehicles.		Speed monitoring and discussions with the police and CW&C Highways. Improved signage and better speed enforcement (camera) requested.	
2018		Concerns voiced by a number of residents regarding speeding on Huxley Lane outside the 30mph zone, particularly where the Sandstone Trail crosses the road where there is a dip in the road and cars can appear wirth little or no warning.		Unlikely to be any speed limit change, but warning signs are promised by CW&C Highways.
