* This land appears to have belonged to the PC but was disputed by Cheshire County Council and was subject to a Commons Registration hearing held in 1979 so no purchase price is available.									
However it was never registered as PC land at the Land Registry and the PC is currently undertaking this process.									
The PC is also looking to register the green space known as Stocks Bank (but not the access roads) in the centre of Tiverton on which stands the iron rail fenced War Memorial, a bench, notice board, and telephone box all owned by the PC
